

Fax-to-Email

Your own fax number without the fax machine - have your faxes sent straight to your inbox.

How it works...

You choose whether you need a freephone or local rate number. All faxes sent to this number are directed to a secure central server, which then returns the fax to your nominated email address. The fax arrives in your Inbox as a PDF file (which can be opened on any PC or MAC). Faxes can be sent to multiple email addresses if you wish.

With Fax-to-email you will:

- Receive faxes at your desk, 24 hours a day, 7 days a week
- Have no line rental or costly unused lines
- Have no minimum or maximum usage requirement
- Be able to move address and the number moves with you
- Get a secure, fast and dependable service
